Preface

Bale Rucita: ICePTi 2017 Exhibition Talk Place

ICePTi 2017 is organized by Kawasan Sains dan Teknologi (KST) Universitas Padjadjaran, Nano Technology and Graphene Research Center (PRINT-G), Material Science & Engineering (MSE) Study Center Universitas Padjadjaran, Indonesian Powder Association, and managed by JP Global Transtech. This ICePTi 2017 is aimed to explore ideas, research progress, technology development and collaboration among researcher in powder technology and its applications. The conference covers a wide range of powder technology processing, powder science and its application. All submitted papers will be peer reviewed and evaluated based on originality and relevance to the topics of the conference.

In conjunction with this event will be held "The 4th Japan Powder Technology Forum in Indonesia". This forum was initially developed by Kanto Section of the Society Powder Technology Japan. The objectives of this forum is to introduce the field of powder-technology and technologies developed by Japanese companies/societies.

While ICePTi 2017 exhibition will provides opportunities to present new products and technologies, maintain close relationship with customers, obtain new markets and customers, communicate with industry, government and academia, and exchange information with supporters and collaborators.

Exhibition Name

International Conference and Exhibition on Powder Technology Indonesia
ICePTi 2017.
